

DELFIELD®
A Welbilt Brand

Equipped with
GreenGenius™

Specification Line®

Bringing you a 24/7 connection that's
easy to use and energy efficient

Specification Line®

Bringing you a 24/7 connection, easy to use & energy efficient

Delfield is bringing a product offering that surpasses others in the reach-in market place with Specification Line. Bringing you a 24/7 connection, easy to use and energy efficient equipment. Spend your time worrying about other details, we've got your refrigeration covered! Our unique reach in refrigeration system, GreenGenius™, preserves the environment, saves energy and decreases utility costs. Delfield reach ins offer exclusive features like full integral door length handles, self-closing doors up to 90 degrees, LED interior light, greater capacity without increasing foot print and easy to use touchscreen and app.

Stainless steel shelves on easily adjustable pilasters

Industry leading interior usable storage, more capacity at a great price point

Durable ABS door liner with gasket protection and easily removable door gaskets

Reach-ins, pass-thru's and dual temps fit through standard doorways

Simple stay open/self closing door hinges for ease of use

LED interior lights standard

Top mount refrigeration keeps heat up and out of the foodzone

Specialty units and multiple options to create the unit that suites you best

Specialty units including fish files, dual-temps, heated and sliding glass door units all available on Specification Line.

Easy-grip, integral side door handle and stainless steel doors, protects the gasket extending its life and is ergonomically designed for end users

easyTouch® Touchscreen

Time to get in touch with your refrigeration equipment

easyTouch® color 4.3" touchscreen display

The easyTouch® touchscreen has been designed to make your daily tasks easier and more productive. It is easy to use and smart enough to control all the functions an operator needs. Some screens are protected with a password so that only those that should have access can adjust those settings. Additionally, the large display always indicates the temperature of the system.

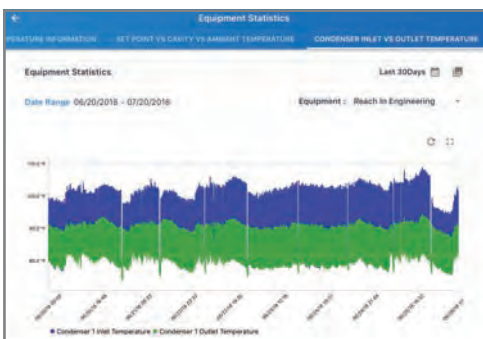

Remote monitoring of data and equipment

Your smart device is all you need to get alerts, review data and monitor your equipment. There is no more need to be in the kitchen to handle to an issue or prepare required data. Simply use our app (iOS, Android or web-based) to save time and be informed. No more need to write daily logs!

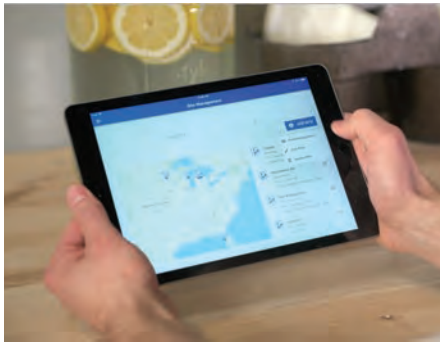

Analyze data history and equipment remotely

Factory servicers can utilize the app and review your equipment remotely. They can analyze compressor data and cycling trends to help you get your equipment back up and running if a service issue occurs.

24/7 Connectivity

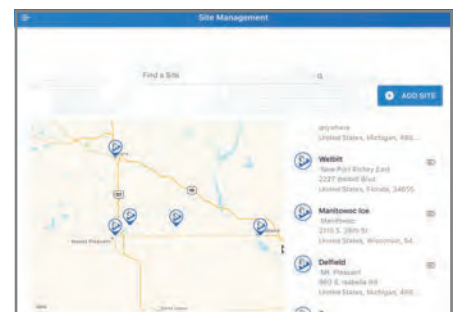

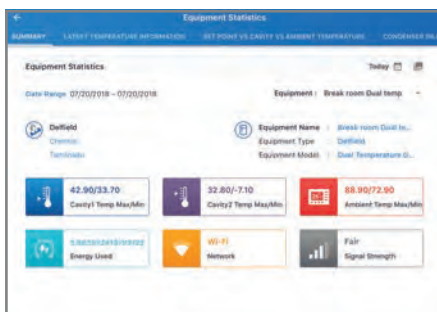

Get your data whenever and where ever you are.

Ask yourself:

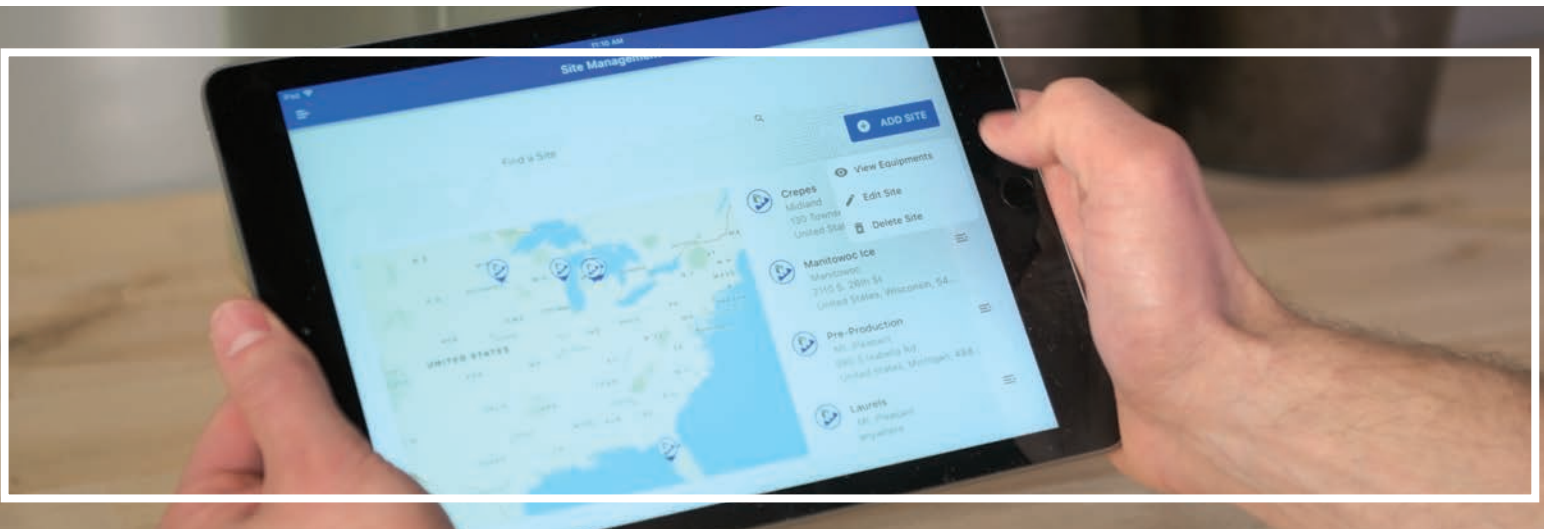

- Did you ever lose food due to out of range temperatures?
- Is your equipment running properly when you are away?
- Do you want to know how much energy you are really using?
- Are you concerned that someone forgot to record HACCP data?

Delfield's new Specification Line connects you 24/7 and provides peace of mind operators need. If you are offsite, use our app to connect all your locations and view all equipment with one click. If you are onsite, the control provides all your kitchen data and you can easily access it by swiping across the screen.

Stay connected with the Delfield App

The control and app keep you connected offering all the data you need for health, safety and beyond. What's more, you receive alarm notifications on your smart device in case there is an issue that needs your immediate attention with simple steps to possibly correct the issue. Delfield's new Specification Line equipment is designed to make your life easier by staying connected and allowing you to use your time to focus on your business and grow your profits.

Euro Design

Designed to look good and function even better.

Delfield's new Specification Line offers sleek styling featuring stainless steel finish with Panoramic LED lighting to keep everything in sight and keep your food looking as good as it tastes. It has clever conveniences like streamlined full-length door frame handles and a large full color display screen that you can see from across the kitchen. Inside, a tool-less removable gasket is easy to clean and replace as well as the door liner has ABS plastic to protect the gasket from wear and tear.

LED Lighting

Beveled front

ABS door gasket protector

Easy to replace door gasket

Full length integrated door handle

Energy Efficiency

Saving more than just your investment.

We recognize the need for energy efficiency in refrigerated and heated units and are proud to have one of the lowest energy usages in the market place. All of our solutions are designed with energy savings in mind and most of them are ENERGYSTAR® listed.

Designed with energy savings in mind

- **Higher efficiency compressors and fans**
- **Improved door design**
- **Wider gasket seal**
- **High density foam**

Our best refrigeration system ever. GreenGenius™

GreenGenius is our most advanced, energy efficient, environmentally friendly hydrocarbon refrigeration system we have ever produced. Our top mount system maximizes internal storage space and improves maintenance access by having a one-piece, removable system up top and out of the way. This new system maximizes refrigeration efficiency and energy savings all while helping to save the environment by utilizing natural R290 refrigerant which has one of the lowest GWP (Global Warming Potential) of any commercially approved refrigerants. Look for this symbol on Delfield refrigeration products. The next generation of refrigeration system is here in GreenGenius.

Welbilt offers fully-integrated kitchen systems and our products are backed by KitchenCare® aftermarket parts and service. Welbilt's portfolio of award-winning brands includes **Cleveland™, Convotherm®, Crem™, Delfield®, fitkitchenSM, Frymaster®, Garland®, Kolpak®, Lincoln™, Manitowoc® Ice, Merco®, Merrychef® and Multiplex®.**
