Clearly the best

Fresh Solutions, Fit for You

Air Screen Merchandiser

Versatile, functional and attractive. Put products in the spotlight by showcasing items your customers can't resist at eye level.

Available features of the drop-in refrigerated Air Screen Merchandiser.

VARIETY OF SIZES

A wide offering of sizes for drop-ins: 36" and 48" lengths with a 42" height.

MAINTAINS TEMPERATURE

Meets NSF7 type 2 requirements which maintains 33°-41° F temperature in 80° F degree environment with 55% relative humidity.

SHOWCASE

Designed to showcase all prepackaged products. The bottom pan in the base of the display area is perfect for salads, sandwiches, wraps, fruit plates - virtually anything.

LARGE CAPACITY

Maximizes display space; three lighted glass display shelves are standard.

UPSCALE APPEARANCE

The glass display area allows for maximum visibility of the product.

REAR LOADING DOORS

Sliding, locking doors provide easy access for loading product from the back - perfect for units built into a serving line.

Shown with optional EcoMark® base.

AIR SCREEN DESIGN OFFERS DESIGN FLEXIBILITY

The open front not only puts product right in front of your customers but it is also great for speed of service and getting your customers through the line fast.

ADJUSTABLE SHELVES

Adjustable shelves offer flexibility of display. The shelves can be moved in 1" increments and tilted into three positions.

IN GOOD LIGHT

LED slim line lighting is hidden below each shelf and is standard on all models.

EASE OF SERVICEABILITY

Slide out condensing units allow for easy serviceability.

SECURITY COVER

The drop-in air curtain merchandiser include a night security cover.

F5/F15 Refrigerated Servview Display Case

Put variety within reach with an option to fit nearly every serving application.

Available features of the F5/F15 Display Case

VARIETY OF OPTIONS

36", 48", 60" or 72" long F5 display cases. 48", 60" or 72" long F15 display cases. 24" or 30" deep with a double service display section with mirrored back, a single service display section, or a pass-thru display section with glass doors on both sides. The F5/F15 display cases offer a service style that works for your operation.

PERFORMANCE

The top mount coil with multiple fans circulating the air through the cabinet ensure proper temperature management.

RUGGED

The molded stain resistant ABS interior provides the strength to withstand hard use and unintentional abuse year after year. We guarantee the ABS liner against cracking, denting or corrosion under normal use conditions.

Shown with optional casters and S/S ends.

FLEXIBILITY

The three adjustable epoxy coated wire shelves provide the flexibility needed to display products that are a variety of different sizes.

KEEP IT CLOSED

The self closing doors ensure that the doors are properly shut even when customers may not be as conscious of keeping the doors closed as you may be.

BACK UP STORAGE

The F15 refrigerated base increases your refrigerated back up storage space with the F15 refrigerated base complete with one epoxy coated shelf per door and an ABS interior liner.

GRAB MORE ATTENTION

Many times, aesthetics do matter. Choose a laminate or graphic package that ties into the room décor and upgrade the already great looking stainless steel exterior.

Self closing sliding doors

Variety to fit into your operation

Molded ABS liner with shelf supports

Top mount coil & LED light
